

TECHNICAL SPECIFICATIONS

- Capacity: 550 ml / 20 oz
750 ml / 26 oz
- Diameter: 74 mm / 2,91"
- Height: (550 ml) 189 mm / 7,44"
(550 ml+cap) 193 mm / 7,60"
(750 ml) 244,5 mm / 9,62"
(750 ml+cap) 248,6 mm / 9,79"
- Weight: (550 ml) 84 g / 0,19 lbs
(750 ml) 96 g / 0,21 lbs
With anti-dust cap:
(550 ml) 99 g / 0,22 lbs
(750 ml) 111 g / 0,25 lbs
- Max liquid temp. 40°C / 104°F.

MATERIALS

- Bottle body: Food-grade polyethylene.
- Valve: Thermoplastic rubber.
- Cap: Food-grade polypropylene.
- The optional Bio-Additive material is eco-friendly by reducing the decomposition times in landfills. (Surcharge applies)

FEATURES

The **Kebea** bottle ensures max versatility, combining all the features of a perfect bottle in a single product: easy to hold and squeeze, high flow rate valve, easy to clean and made to last.

FOR ALL BOTTLE CAGES

With a standard **74mm diameter**, the **Kebea** bottle can be used with all commercially available traditional bottle cages.

DESIGN

- **Kebea** is **sporty yet efficient**, so the bottle body is resistant under all circumstances without altering its lightness and softness features.

PRACTICAL

- **Wide mouth opening**: ideal to allow for thorough cleaning of the bottle and facilitate refilling with liquids and supplements.
- Here's an interesting detail: the **E-sign**, the stylized Elite logo symbol (■), is placed at the center of the cap to make it easier to grasp and unscrew it.

KEEP AN EYE ON YOUR LIQUID LEVEL

- To do so, Elite designed a practical transparent strip that runs along the whole side of the bottle, so you can always check how much liquid you have left.

IDEAL GRIP

- The ergonomic structure of this Elite bottle makes it **easier to grip and hold** under any circumstance.

HIGH LIQUID FLOW RATE

- The **Kebea** bottle valve allows for **quick and easy rehydration**.
- Easy to open and close with your mouth, the valve is designed to ensure top performances while doing sports.

SQUEEZABLE

- Bottle body is particularly soft, easy to squeeze just by **lightly squeezing with your hand** to facilitate liquid flow.

PUSH-PULL VALVE CAP

- **Ergonomic designed cap** for easy, sure grip.
- Ideal for multi-sport use as it features a **soft rubber push-pull valve** to ensure it's easy to open and close and offer a high rate of liquid flow.

ALSO FEATURES PROTECTIVE CAP

- You can complete the bottle body with a practical **protective cap**, perfect while cycling as it can be opened and closed with a single hand.
- Cap cover is designed to protect the valve from dust, mud and dirt, so the bottle is particularly indicated to be used on Mountain and Off-Road Bikes.

FOOD SAFETY

- All our water bottles are made from **100% FDA food-grade materials** and **comply with European CE regulations** governing food-grade materials.

BPA FREE

- Materials are **100% BPA (Bisphenol-A) free**.

RECYCLABILITY

- Materials are **100% recyclable** via the usual recycling means.
